

DOBGIMA JOSHUA FONCHAM

IT Infrastructure & Full-Stack Developer | Buea, Cameroon

Email: dobgimajoshua52@gmail.com | GitHub: <https://github.com/Dobgim> | Phone:
670874649

PROFESSIONAL SUMMARY

IT Infrastructure & Full-Stack Developer with expertise in cloud-based solutions, database management, and web application architecture. Specialized in building scalable systems for emerging markets using Firebase, Supabase, and Node.js. Proven ability to design secure, multi-tenant platforms for B2B applications. Experienced in Git/GitHub workflows, system administration, and remote infrastructure management.

TECHNICAL SKILLS

Backend & Infrastructure:

Node.js, Express.js, Firebase (Firestore, Cloud Functions), Supabase (PostgreSQL, RLS), REST APIs

Frontend:

React, React Native, Flutter (Dart), HTML5, CSS3, Tailwind CSS

Database & Data Management:

PostgreSQL, Firestore, Firebase Realtime Database, SQL Query Optimization, Row-Level Security (RLS), Backup & Recovery

Version Control & Collaboration:

Git, GitHub, Branch Management, Code Review, Pull Requests, Workflow Automation

Cloud & Hosting:

Firebase Hosting, Vercel, Netlify, Serverless Architecture, Cloud Functions

Security & Authentication:

JWT, OAuth2, Email/Password Auth, Role-Based Access Control (RBAC), SSL/TLS, Data Encryption

Payment Integration:

Mobile Money (MTN/Orange), CinetPay, Fapshi, Stripe, Transaction Processing

PROFESSIONAL EXPERIENCE

IT Infrastructure & Development Specialist | ConsultStudyBridge

July 2026 – Present. Remote (Africa-to-Japan Education & Travel Consultancy)

- Building secure admin dashboard for document management (applications, visas, student records)
- Setting up PostgreSQL database with Row-Level Security (RLS) for multi-client data isolation
- Implementing authentication system with role-based permissions (Admin, Agent, Finance, Viewer)
- Learning and applying Git/GitHub workflows for team collaboration and version control
- Planning document storage architecture, backup strategy, and disaster recovery protocols

Solo Full-Stack Developer. Commercial Product Development

2024 – Present. Cameroon (Multiple B2B SaaS Projects)

- AI Fleet Maintenance Copilot: Multi-tenant SaaS for fleet operators using Supabase PostgreSQL with RLS for tenant isolation
- Home237: Full-stack Flutter property rental platform with Firebase, Mobile Money (Fapshi), KYC verification, real-time chat
- NutriSnap CM: Food calorie estimation app with Supabase auth, custom nutrition DB, CinetPay billing
- Multiple MVP projects exploring PropTech, EdTech, and fintech for African markets

EDUCATION

Bachelor of Technology (BTech) in Software Engineering

University (LMUI), Buea, Cameroon

KEY PROJECTS & ACHIEVEMENTS

Document Management System:

Architected secure multi-tenant document storage using Supabase with RBAC, audit logging, and automated backups

Multi-Tenant SaaS Architecture:

Designed PostgreSQL Row-Level Security (RLS) implementation for secure data isolation across multiple clients

Mobile Money Integration:

Integrated MTN/Orange Mobile Money gateways (Fapshi, CinetPay) with transaction tracking and error handling

Full-Stack Delivery:

Delivered production-ready applications with authentication, real-time messaging, location services, and payments

TOOLS & INFRASTRUCTURE KNOWLEDGE

- Version Control: Git CLI, GitHub, branch management, pull requests, code reviews
- Hosting & Deployment: Firebase Hosting, Vercel, Netlify, serverless platforms
- Database Admin: PostgreSQL, query optimization, backup/restore, migration management
- Monitoring: Uptime monitoring, error tracking, performance analysis
- Development Tools: VS Code, Chrome DevTools, Firebase Console, Supabase Studio
- API Design: REST APIs, webhooks, third-party integrations

LANGUAGES

English (Fluent), French (Intermediate), Pidgin English (Fluent)

ABOUT ME

Entrepreneurial developer passionate about building scalable software for African and global markets. Experienced in remote work, independent problem-solving, and rapid learning. Strong advocate for clean code, documentation, and best practices. Interested in B2B SaaS, infrastructure automation, and emerging market technology solutions.
